## Meet-and-Greet with Root Routledge

### 2020 Candidate for U.S. House, Colorado's 3<sup>rd</sup> Congressional District

Grassroots climate activist, industrial consultant and 2020 Congressional candidate Root Routledge is making a multiple county December tour to visit northern and central CD3 counties to meet fellow Democrats and voters of all political persuasions. Root's campaign is focused on four strategic issues that are crucial to a viable future for our country and our planet: **Healthy Democracy, Healthy Population, Healthy Environment, and Healthy Economy**. Website: [RootForCitizenCongressman.org](http://RootForCitizenCongressman.org).

Root will speak to each of these gateway issues, with a leading focus on our climate crisis. In particular he wants to hear how people from CD3 counties are experiencing the existential threat of the impending climate catastrophe that is threatening our future if we don't act now; and on these other strategic issues.
