

LEADING ON CLIMATE TOUR

RootForCitizenCongressman.org

Meet-and-Greet with Root Routledge

2020 Candidate for U.S. House, Colorado's 3rd Congressional District

Grassroots climate activist, industrial consultant and 2020 Congressional candidate Root Routledge is continuing a multiple county tour to visit all CD3 counties and meet fellow Democrats and voters of all political persuasions. Root's campaign is focused on four strategic issues that are crucial to a viable future for our country and our planet: **Healthy Democracy, Healthy Population, Healthy Environment, and Healthy Economy.** Website: RootForCitizenCongressman.org.

Root will speak to each of these strategic gateway issues, with a leading focus on our climate and rural healthcare crises. In particular he wants to hear how people from Western and Southwestern Colorado counties, which the National Climate Assessment indicates is the area at greatest risk to rising temperatures in the Southwest, are experiencing this existential threat of the growing climate emergency that is threatening our future if we don't act now. And hear about rural health care needs.
